-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

1) Responsive to communication(s) filed on \_\_\_\_.  
 2a) This action is FINAL.                    2b) This action is non-final.  
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application, see PTO-948. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### ***Specification***

2. The disclosure is objected to because of the following informalities: page 4 line 13, a space should be inserted between "bar" and "10".

Appropriate correction is required.

### ***Claim Objections***

3. Claim 2 is objected to because of the following informalities: the limitation "second elongated slip hitch support member" recited in lines 9 and 10 has no antecedent basis; no reference is made to a first elongated slip hitch support member. It appears that the limitation should read, "second elongated slip hitch member", and the claim will be interpreted as such. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Kirchell, US 6354025.

Regarding claim 1, Kirchell discloses a slip hitch assembly for a snow plow (100) having a snow plow frame (126), said slip hitch assembly including:

Slip hitch support means for supporting an elongated slip hitch member (140) thereon for limited reciprocal movement upwardly and downwardly relative thereto as said snow plow (100) is moved upwardly and downwardly, including said elongated slip hitch member (140), said elongated slip hitch member (140) mounted on said slip hitch support means for reciprocal movement upwardly and downwardly relative thereto as said snow plow moves upwardly and downwardly, said elongated slip hitch member (140) including connecting means (106) for connection to a forward drive vehicle during its snow plowing operation.

Regarding claim 2, Kirchell further discloses the slip hitch support means comprising:

A first slip hitch support frame (132) secured to said snow plot frame (126), said elongated slip hitch member (140) mounted on said slip hitch support means for reciprocal movement upwardly and downwardly relative thereto as said snow plow (100) moves upwardly and downwardly comprises a first elongated slip hitch member (140) being mounted for said reciprocal movement on said first slip hitch support frame (132), including a second slip hitch support frame (132, on opposite end of plow) secured to said snow plow frame (126) at a location spaced apart horizontally from said first slip hitch support frame (132), a second elongated slip hitch member (140, on opposite side of plow), said second elongated slip hitch member (140) being mounted on said second slip hitch support frame (132) for reciprocal movement upwardly and downwardly relative thereto as said snow plow moves upwardly and downwardly, said second elongated slip hitch member (140) including connecting means (106) for connection to said forward drive vehicle for moving said snow plow (100) forward during its snow plowing operation.

***Allowable Subject Matter***

6. Claims 3-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

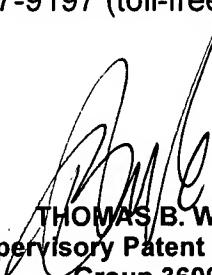

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
